### **Ref: Rwanda - Musanze blast**

On behalf of my party, the Rwanda people's party, we have been concerned about the increased insecurity in Rwanda. And my party has noticed this terrible incident that happened today on Friday 23 March 2012 at Musanze, where one person died and five others injured.

This is precisely the situation that we as a political party have been drawing the attention of the international community to

President Kagame's policy is creating danger and insecurity for the Rwandan population as whole. This is why we have proposed our Road Map to Peace to the Rwandan government and which they have not yet responded.

Our roadmap to peace is still on the table and we are ready and willing to engage in a meaningful talks with the RPF government to resolve what is increasingly becoming a potentially violent situation in our country, as evidenced by today's evidence in Musanze.

It is not too late for the RPF government to engage with opposition to resolve Rwanda's political, social and economical problems on a peaceful basis. And so therefore, that's why we ask president Kagame to hear the cry of the Rwandan people and stop the violence whether committed by the government army or opposition rebels.

Our road Map to Peace and reconciliation is the only way forward for the building a new Rwanda.

Thanks
